

Forest Flute Fingerings

based on Nakai Tablature for Native American Flute

developed by Clint Goss

The image displays seven rows of musical notation and corresponding fingering diagrams for a forest flute. Each row is labeled with a note name: Root, Minor Third, Fourth, Fifth, Seventh, Octave, and Minor Tenth. The notation is in treble clef with a key signature of three sharps (F#, C#, G#). The fingering diagrams show the flute's finger holes, with black dots indicating holes to be covered and white circles indicating holes to be open. The Root note uses the thumb hole and the first three finger holes. The Minor Third note uses the thumb hole and the first two finger holes. The Fourth note uses the thumb hole and the first two finger holes, with the third hole open. The Fifth note uses the thumb hole and the first two finger holes, with the third hole open. The Seventh note uses the thumb hole and the first two finger holes, with the third hole open. The Octave note uses the thumb hole and the first two finger holes, with the third hole open. The Minor Tenth note uses the thumb hole and the first two finger holes, with the third hole open.

Notes:

- Fingerings for forest flutes by Alf Jetzer.
- The top hole on the Forest Flute is a thumb hole, in the back of the flute.
- Fingerings for notes above the octave note may vary among individual flutes.
- Notes above the Minor Tenth may not resonate on a particular flute.
